QUALITY

Steve says . . .

As we step into the promising year of 2025, the team at Gynex extends warm wishes for a Happy New Year filled with joy, health, and prosperity.

We are pleased to present our latest Winter Catalog featuring a comprehensive range of cutting-edge OBGYN instruments tailored to meet the evolving needs of your practice. We recognize the importance of the work you do, and it is an honor to contribute to your success by providing reliable and high-quality instruments. Our team is ready to assist should you

have any inquiries, require personalized assistance, or wish to discuss custom solutions.

Thank you for choosing Gynex as your partner in women's healthcare. We look forward to serving you and being an integral part of your continued success.

Thank you,

A handwritten signature in cursive script that reads "Steve".

Helps enhance the appearance of abnormal areas.

CERAMIX™ Biopsy Punches

Our sharpest, longest lasting biopsy punch

CERAMIX™ coated biopsy punches offer increased resistance to corrosion and resilience against impact and low friction coefficient results on the market. Sharper up to 10 times longer than ordinary stainless steel with incomparable cutting-edge hardness.

See Hardness Comparison Chart below.

Hardness Comparison Chart

METAL	(HV 0.05)	COATED METAL	(HV 0.05)
Stainless Steel	550	Titanium Nitride	2900
Tungsten Carbide	650	CERAMIX Coating	4500

Vickers Hardness Test - HV/0.05 meaning a 50g load was used.

RotoTIP™ Biopsy Punch, STAINLESS

RotoTIP™ rotating biopsy punches offers the added convenience of changing the biopsy tip size and shape without the expense of having additional complete biopsy punches. With a single handle, you can have several tips available. Although the Standard Tip Tischler and the Mini-Tischler are the most popular, this design provides you a cost savings option to add angled tips. These tips easily rotate, allowing you to gain better positioning for a biopsy sample.

Features

- Shaft/tip can be rotated 360°
- Shaft/tip assembly is interchangeable
- Lower cost alternative to individual biopsy punches

Lickrish Spiral Curettes

Dilator • Curette

The innovative Endocervical Lickrish Spiral Dual-Purpose Curette was developed by Dr. Gordon M Lickrish, former director of the colposcopy unit at University Health Network in Toronto. The spiral design is ideal for addressing cases of severe cervical stenosis and narrow endocervical canals, allowing for gentle insertion, dilation, and precise tissue sampling when standard curettes are inadequate. The tip can be gently guided through the Os while simultaneously advancing and rotating.

Word Bartholin Catheter Kit

STERILE EO Single-Use
 Not made with natural rubber latex.

The Word Bartholin Catheter Kit contains everything you need for an effective office treatment of Bartholin gland abscesses and cysts providing patients with immediate relief.

Each Kit Contains:

- (1) Silicone inflatable catheter
- (1) Scalpel
- (1) 3cc Syringe w/24 GA Needle

REF 10-200 Box of 2 kits **\$59⁹⁵**

Outpatient Treatment for Bartholin gland cysts and abscesses.

Insertion of an inflatable balloon is a non-surgical procedure that can be performed as an outpatient using a local anaesthetic injection to numb the area. It involves making a passage through which the pus can drain over 4 weeks.

Corson Myoma Polyp Grasping Forceps

Experience precision and reliability with our Polyp Grasping Forceps, designed for superior performance in polyp removal procedures. Engineered with high-quality stainless steel, these forceps ensure exceptional durability and longevity.

Key Features:

- Precision Grip: Fine-tipped design for secure and accurate grasping of polyps.
- Ergonomic Handle: Comfortable, non-slip grip reduces hand fatigue during extended use.
- Enhanced Control: Smooth operation for seamless maneuverability in delicate procedures.

VILLA™

New

Hormonal Implant Dissecting Forceps

The Villa™ Hormonal Implant Dissecting Forceps and Implant Remover make the perfect pair in the event that an implant is not visible upon incision. After making an incision, some implants remain difficult or impossible to view. If this is the case, the dissecting forceps, with pointed tip, can be opened and closed to separate the tissue encapsulating the implant. This will allow the remover to grasp, hold, and retract the implant.

Villa™ Hormonal Implant Dissecting Forceps

- (1) IUD String Scissor
- (2) Rayon Swabs
- (1) ACCU-SOUND® Uterine Sound
- (1) Folded Drape

Uterine Sounds

ACCU-SOUND® Uterine Sound, Single-Use

STERILE EO Single-Use

Not made with natural rubber latex.

The simple yet ingenious design of the ACCU-SOUND® Uterine Sound eliminates the guesswork involved with a standard uterine sound. When inserting the ACCU-SOUND® into the uterus, the ring rests against the outside of the Os. When the device is withdrawn from the uterus and vagina, the ring stays in place, clearly indicating the uterine measurement.

Length: 24cm

Shaft Diameter: 3mm

REF 4950 Box of 25 \$74⁹⁵

Not Shown at Actual Size

1

Gently insert ACCU-SOUND® uterine sound's dilating tip into the cervical Os.

2

Gently advance the ACCU-SOUND® Uterine Sound until the back of the uterus is felt.

ACCU-SOUND® Uterine Sound ring will rest against the outside of the cervical Os.

3

Withdraw ACCU-SOUND® Uterine Sound from the uterus and vagina. The ring will remain in place on the uterine sound indicating the uterus measurement.

An accurate measurement is indicated by the location of the ring on the ACCU-SOUND® Uterine Sound

Note: It is highly recommended that the practitioner utilize a sound to determine the patient's uterine depth prior to using any uterine manipulator/injector.

sure@sample® • *Select 1*

Endometrial Curette

STERILE EO Single-Use 
 Not made with natural rubber latex.

Suresample® *Select 1* is a uniquely designed curette for sampling the uterine endometrium, ideal for obtaining samples from the uterus and mucosal lining by scraping or vacuum suction.

Cannula Length: 8-1/8" (20.5cm)

OD: 3mm

Features

- Randall-Style sharp cutting-edge
- Semi flexible curette with slight curve
- Easily readable 1cm markings on cannula
- White Cannula Stylet insert for additional rigidity
- Depth Marker acts as a visual aid to protect against perforation
- 10mL standard syringe with Twist-and-Lock plunger

REF 3130	Box of 5.....	\$36⁹⁵
REF 3135	Box of 24.....	\$144⁹⁵

The unique design and special features allow for better accuracy and a more reliable sample.

sure@sample® • Select 1

Endometrial Curette

Simple, Safe and Effective

Tapered tip for easier insertion.
Randall - Style sharp cutting edge.

DEPTH MARKER

Set the desired curette marker depth after sounding the uterus.
This depth marker acts as a visual aid to reduce the risk of perforation.

TWIST AND LOCK PLUNGER

The twist-and-lock plunger on the syringe allows the provider to maintain a constant vacuum pressure while collecting the specimen

The endometrial sampler with a proven track record!

sure@sample® Endometrial Sampler

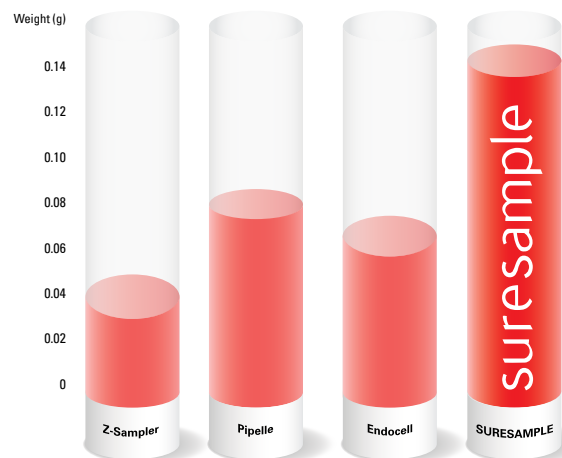

The Suresample® Endometrial Sampler has been trusted by doctors for over **25 years**

Our **patented 3-port sampling system** doubles the harvested samples of tested competitors and allows **easy retrieval** with **reduced cell damage**. A much **greater histological adequacy and integrity** than any other samplers. 12 to 1 ratio of histological adequacy and 8 to 3 for histological integrity, Suresample® is the finest endometrial sampler.

Suresample® formable shaft memory allows the physicians to **pre-shape shaft** to meet each patient's unique physical requirements. Its tensile strength and rigidity make it malleable enough to conform to the direction of the cervix and lower segment, strong enough to access a tight canal. The formable 3mm shaft diameter enhances ease of use and minimizes patient discomfort.

AMOUNT OF BIOPSY TISSUE

Better performance than other brands

Suresample® Endometrial Sampler retrieves more than twice the harvest of its competition!

sure@sample[®]

Endometrial Sampler

STERILE EO Single-Use 
 Not made with natural rubber latex.

Features and Benefits

- **3-Port Sampling System** - one port on each side of the distal end of the shaft and one on the tip end.
- **Grip retraction** creates a strong internal vacuum.
- **Two phase action** between the ports and grip produce a higher yield of tissue sample in an amazingly controlled manner.
- **Formable memory shaft** allows physician to shape the sampler to meet each patient's physical requirements.
- **Tensile strength and rigidity** allow conformity but also provide enough strength to access through a smaller canal.
- **No cutting or splitting of tip** (a tedious process required by other widely used samplers that leads to damaged specimen).
- **Quick retrieval process** - simply push the SURESAMPLE[®] Endometrial Sampler grip back, forcing the specimen out of the open sampler tip and sides.

CO4100 Colposcope

Three-Step Magnification, 45° Angle with Integrated LED Light

The CO4100 Colposcope features three-step magnification and 45° viewing angle with integrated LED light. The 45° angle lenses allow inclined viewing for a natural sitting position, reducing the need to bend over. The CO4100 Colposcope includes excellent optics designed to facilitate comprehensive cervical examination, with ease and style.

Features

- Multi-Coated, Hand-Polished Apochromatic Lens
(Minimizes secondary color and corrects chromatic aberration)
- Integrated Power Source and Cables
(Enclosed in base and post for a clean and clutter free look)
- Low voltage DC power
(Eliminates the need to replace fuses)
- LED Illumination System
(Accurate color balance, cool to the touch, long bulb life)
- Three-Step Magnification
- Optical Measurement Rings
- Individual Eye-Shields
- Integrated Green Filter
- Adjustable Tension Ball-Joint for Easy 360° Motion

Specifications

- Focal Length: ± 316mm
- Magnification: 3.75X, 7.5X, 15X
- Optical Angle: 45°
- Field Of View: 9.5mm, 19mm, 38mm
- Depth Of Field: 5mm, 8mm, 32mm
- Light Intensity: > 25,000LUX
- Working Height: 838mm to 1194mm (33" to 47")
- Power Supply: 90V to 240V
- Warranty: 1 Year - Parts and Labor (excludes shipping charges)

Options

- Additional Extended Warranty

with a 360° rotating Tilt Base

Galileo® Medical Exam Light

Experience the ultimate convenience and functionality of the Galileo® Medical Exam Light. Its **flexible neck** and adjustable design allow you to position the light exactly where you need it, providing optimal sharp illumination. Its **durable and aesthetically pleasing** design makes it a smart investment for any medical facility.

With **energy-efficient** LED bulb, the Galileo® Medical Exam Light is not only cost-effective but also long-lasting.

Ideal for hospitals, clinics, and private practices, the Galileo® Medical Exam Light is the perfect addition to any medical setting.

Brighter and Cost Effective

- Features 1 white 3W LED for precise, high-output lighting
- Boasts a long lifetime of up to 50,000 hours and provides high illuminance of 70,000 Lux at a 200mm working distance
- Consumes less energy than traditional lighting options
- Eliminate the need for frequent bulb replacement

True-to-Life Color Reproduction

- The lighting is easy on the eyes, providing a comfortable visual experience
- Delivers exceptional color rendering capabilities, ensuring that the illuminated area looks natural and highly contrasted

Adjustable Spot Size

- Offers adjustable spot size with a diameter ranging from 15mm to 220mm, making it suitable for a wide range of situations and working distances, from 200mm to 1000mm
- Easy to clean, ensuring hassle-free maintenance

Flexible Goose Neck

- An extremely flexible goose neck can be securely fixed in any position
- Features a two-segment design that allows for bending at any angle and any directions

GYNEX® Cone Electrodes

STERILE EO Single-Use

Not made with natural rubber latex.

The Cone Electrode is a LLETZ excisor for precise cone biopsy specimens

Cone biopsy electrodes allow for smooth rotation, facilitating the removal of precise, cone-shaped specimens. The tungsten linear wires are 0.20mm thick to help reduce backward drag. Molded shaft and stop arm are completely insulated to protect the endocervical canal and underlying vaginal structures.

Each electrode is packaged in a molded blister tray which keeps the tip true to shape and protects from breakage.

Vaginal Speculum, LLETZ COATED

4-Way Expander Vaginal Speculum

The 4-Way Expander Vaginal Speculum is designed for LLETZ procedures with Gynex's lavender non-conductive coating. It provides a superior view with one instrument as compared to a standard speculum and lateral retractor. The built-in side blades are erected to enhance the view of the cervix as needed.

Features

- Built-in smoke evacuation tube holder
- Built-in lateral retractor blades
- Side blades lock firmly into place
- Pederson size blades

Sullivan Speculum

Features

- Unique C-Arm maximizes your view
- Easy one handed open and release
- Locks firmly into place

Ideal for bariatric patients

Stainless Steel

Blade Reference Chart: Shown Actual Size, Scale 1:1

C-Arm is designed to parallel the contour of the patient's leg

No side obstruction like most specula

Graves

5% Discount on Prepaid Orders by Check or ACH payment (offer excludes microscopes, colposcopes and/or extended warranties).

Lateral Vaginal Retractor

Control side wall collapse and get more cervical access with a GYNEX® Stainless Lateral Vaginal Retractor. For unparalleled ease of use and variety of practical sizes, nothing compares with GYNEX® Stainless Lateral Vaginal Retractor.

Compatible with GYNEX® Wide-View™ and FullView™ Specula

- Lateral vaginal retractors fit inside the speculum providing greater visibility and access to the cervix

Stainless Steel

Blade Reference Chart: Shown Actual Size, Scale 1:1

Auvard Weighted Speculum

Single-end vaginal speculum designed to be used during vaginal surgery (hysterectomy, dilation and curettage) with the patient in the lithotomy position. The weight holds the speculum in place to provide an open view.

Fixed Weight: 1.4 kg

Size: 105mm long x 38mm wide

REF SA2200 **\$299.95**

Guttman Speculum with Special Blades

This indispensable speculum operates without upper blades, permitting total visualization of the cervix & vagina. Two separators aid in the opening and stabilizing the vagina.

Medium

REF 2310 Top Separator: 82mm **\$69⁹⁵**

Large

REF 2312 Top Separator: 92mm..... **\$69⁹⁵**

Greenberg Hysteroscopy Speculum

The Greenberg Hysteroscopy Speculum is a modified traditional open-sided Graves speculum with shorter blades and an open side allowing removal of instruments while they are still in the vagina. This speculum brings the patient's cervix closer to the provider and reduces the length of unsupported hysteroscope shaft entering the cervical canal.

REF 2801 **\$56⁹⁵**

"The shorter blades bring the external os about 30% closer to the introitus and make access to the cervix dramatically easier in almost every facet of surgical cases in which a speculum is used."

James Greenberg, MD,
Boston, MA

Open-Sided Stainless Steel Speculum

Left and Right Opening

Note: Blade length is measured from top center of back of blade to end of distal tip. In most cases, the bottom speculum blade will protrude and appear to be longer. Mechanical assembly of a speculum simply places the bottom blade in a more forward position. Although the two blades are normally similar in length, they may vary a few millimeters from lot to lot.

Titanium Rainbow™ Speculum

Exclusive Titanium Rainbow™ coating extends the life of instruments over traditional stainless-steel. The titanium coated speculum offers increased resistance to corrosion, resilience against impact and low friction coefficient. Titanium Rainbow™ is available in two viewing widths for Pederson and Graves.

Blade Reference Chart: Shown Actual Size, Scale 1:1

GYNEX® ULTRASONIC FETAL DOPPLER

New

Add this excellent Fetal Doppler to your practice!

Fetal Doppler Model D2500

- Highly sensitive ultrasound
- Detects heart rates of fetus as early as the 12th week
- Automatic shutdown after 1 minute without operation
- Built-in loudspeaker
- Rechargeable battery, 1180 mah lithium
- Colorful display
- 2.5MHz Ultrasound Frequency
- FHR value, FHR waveform volume
- Includes battery charger and earphones

Dimension: 215mm x 200mm x 66mm

REF D2500 \$319⁹⁵

Thermasonic Gel Warmer

- Maintains constant temperature
- Low electrical demand
- Heat indicator lamp
- Adjustable thermostat

REF D82-01 \$314⁹⁵

Doppler Gel

- Acoustically correct for the broad range of frequencies used
- Completely aqueous, will not stain clothing or damage transducers
- 250ml bottle

REF D-GEL Box of 6 ... \$40⁹⁵

pHem-Alert® Vaginal pH Test

NON-STERILE Single-Use

Not made with natural rubber latex

pHem-Alert® test measures vaginal pH, and is intended for use by women who have any of the following vaginal symptoms: Itching, Burning, Unpleasant Odor, Unusual Discharge

KEY ADVANTAGES

- Each test securely packed in a procedure blister tray
- Convenient, unique, patented applicator “key” with attached pH paper
- Easy to read pH chart included with every test set

REF pH-99 Box of 12 \$69⁹⁵

The Original Vaginal pH Test Designed for Accurate & Comprehensive Results!

- pH 4.5**
 - Normal pH
 - Predominant lactobacilli
 - Possible yeast overgrowth
 - Normal serum estradiol
- pH 5.0**
 - Low grade bacterial vaginitis
 - Borderline serum estradiol

- pH 7.5**
 - Low to no serum estradiol

Instrument Care and Cleaning

Touch-Guard® Hot Beads

Sterilization Beads

- Touch-Guard® Hot Beads provide a safe, effective and convenient way to sterilize surgical instruments.
- No need for potentially dangerous gases, flames, or chemicals to achieve sterilization.
- The specially cast “no-lead” glass beads transmit heat properly and remain intact at high temperatures.
- Simply plunge metal instruments into the hot glass beads for instant sterilization.
- Touch-Guard® Hot Beads are free of pathogens and microbial contaminants.
- Pre-measured containers make it easy to use the right amount of beads for each sterilization cycle.

Touch-Guard® Stain-Ex™

Biological & Chemical Stain Remover

- Touch-Guard® Stain-Ex™ is a fast and effective biological and chemical stain remover.
- It removes a variety of stains, including Iodine-based stains, Lugol's stain, and medical/histological stains.
- It can be used on a range of surfaces, including hands, glassware, stainless steel, plastic, counters, floors, lab coats, laboratory equipment, and hospital linen.
- Touch-Guard® Stain-Ex™ works great on LLETZ-coated instruments.
- Application is easy, and stains are removed quickly (in a matter of seconds).

SCAN to SHOP

REF SS10 1 Gallon **\$94⁹⁵**

Touch-Guard® Low Suds

Liquid Instrument Detergent Concentrate

Touch-Guard® Low Suds Liquid Instrument Detergent Concentrate is used for effectively and safely cleaning all surgical instruments, plastic, glassware, and rubber tubing. Formulated for use in automatic washers, ultrasonics, washer-sterilizers, and manual cleaning.

- Neutral pH detergent with powerful sequestering and emulsifying agents
- Fast wetting, odorless, non-sudsing, maintains high detergency
- Removes protein, blood, tissue, fat and any organic soils
- No residue - no pyrogens; leaves a surgically clean surface
- Exceptional cleaning in hard, soft, cold or hot water
- Biodegradable; contains no phosphates or NTA
- Free rinsing, non-enzymatic formulation
- Safe for ophthalmic cleaning

SCAN to SHOP

REF TG-200 1 Gallon **\$34⁹⁵**

Touch-Guard® Lubricant

Instrument Lubricant and Rust Inhibitor

Touch-Guard® Instrument Lubricant and Rust Inhibitor protects and extends the life of all your surgical instruments. Clinically tested to be thoroughly steam penetrable, steam sterilizable and ETO sterilizable. When used daily as a rinse after cleaning, it will keep your instruments moving parts operating smoothly and remain effective even after autoclaving, without any oily residue.

- Reduces repair and replacement cost
- Prevents rust, spots, stains and corrosion
- Restores articulation to sticky box-locks and joints
- Withstands high temperatures and autoclaving
- Steam penetrable, sterilizable and ETO sterilizable
- Non-oily, non sticky, non-toxic, water-soluble and silicone free

Instrument Repair and Sharpening

Gynex® allows you to extend the life of your instruments, deliver optimal performance and better manage your surgical asset investment. All sharpening and repairs also include rust/stain removal, cleaning, minor polishing and lubrication.

Gynex® sharpens and repairs most medical instruments. If the instrument that you would like to have sharpened or repaired is not listed here, or you have any questions, please contact us for more information.

Please note that due to metal, age and condition, some instruments may not be repairable or sharpened.

Pricing is as follows:

Gynex® Biopsy Punch	\$65⁰⁰
Other Brand Biopsy Punch	\$75⁰⁰
Gynex® Curette	\$40⁰⁰
Other Brand Curette	\$50⁰⁰

Toll Free: (888) 486-4644
(8:00AM–5:30PM CDT)

Selling Notice:

All products are limited to purchase by licensed medical practitioners, physician and medical facilities. In most cases, we do not sell to the general public.

Warranty:

All hand-held instruments in this catalog are warranted to be free of defects in manufacturing materials and workmanship for two years from date of purchase. Customers who feel an instrument is defective must return it to GYNEX for evaluation. Products found to be defective will either be repaired or replaced with the same or comparable product, at the discretion of GYNEX Customer Service. Warranty on any hand-held GYNEX instrument is voided if instrument is repaired or sharpened by anyone other than GYNEX. All GYNEX biopsy punches in this catalog will be sharpened free of charge for one year from date of purchase (if enough metal is remaining on tip to allow sharpening). Warranties do not cover general maintenance, cleaning or sharpening needs that result from normal use, except as noted above regarding biopsy punch sharpening. Damages caused by misuse, improper care, cleaning, chemicals, or loss and theft are not covered by this warranty. Shipping charges are not covered for free sharpening warranty nor extended equipment warranty.

Return Policy:

Customer must obtain a Returned Merchandise Authorization (RMA) number from GYNEX customer service at (888) 486-4644. An itemized list of returned products must accompany all returns. Include the Returned Merchandise Authorization (RMA) number and explanation of why the product is being returned. Returned goods MUST be packaged in a shipping container equivalent to that in which it was received. Returned goods MUST be shipped at customer's expense by Parcel Post, Airborne, FedEx or UPS, and must be insured for the purchase price of the contents. Returned goods received by GYNEX in any form less than that described above

will be refused by GYNEX and return shipped to the customer.

The following items may be returned:

- Product with RMA number
- All returns must be made within 30 days of the item receipt (except for warranty).
- Product with unbroken seals, with labels intact, in original container and packaging
- Unused instruments which have not been cleaned or sterilized
- Single-Use[®] product (sterile) in original, unopened package
- Product damaged in shipment*
- Product that has at least 12 months remaining shelf life as determined by the expiration date
- Instruments damaged, broken or not working properly due to defects in material or workmanship

**Note: Product returned due to error or damage in shipping must be reported to customer service within 72 hours of receipt. Damaged product must be accompanied by a written explanation noting damage.*

The following items may not be returned:

- Product without RMA number
- Product that has been improperly handled or stored
- Product that is marked, coded, dated, damaged, soiled or adulterated in any way (except standard cleaning and sterilization procedures for reusable instruments)
- Product damaged by or exposed to heat, fire, smoke, high humidity or water (except standard cleaning and sterilization procedures for reusable instruments)

Restocking Charge:

A 15% restocking charge applies to all returned product, unless the return is due to error in shipment, product damaged in shipment, or product returned for repair or replacement due to defect in material or workmanship.

Disclaimer:

All prices in this catalog are subject to change without notice. All sizes indicated may vary slightly, due to differences between manufactur-

ers. In order to carry sufficient inventory, it is necessary for GYNEX to purchase from different manufacturers. As a result, final products may not be the exact sizes as shown in charts, drawings or photos. The advertisements and information in this catalog may contain typographical errors or inaccuracies and may not be complete or current. GYNEX therefore reserves the right to correct any errors, inaccuracies, or omissions and change or update information at any time without prior notice. Please note that such errors, inaccuracies, or omissions may relate to pricing or availability. We reserve the right to refuse to honor offers or terms, which contain error or inaccuracies.

Force Majeure:

Neither party shall be liable for any failure or delay in delivery of goods, or in otherwise fulfilling its obligations with respect to the sale of goods to the other which results from any cause beyond its reasonable control, including disruption or delays in a common carrier's transportation schedule, compliance with any regulations, orders, acts, instructions, or priority requests of any national, state or municipal government, or any department or agency thereof, or from acts of God, fires, or other casualty of accidents, strikes, lockouts, factory shutdowns, embargoes, riots, or other disorders, delays or shortages in transportation, or inability to obtain in sufficient quantity fuel, power, labor, manufacturing facilities or materials or other supplies from the usual sources of GYNEX. Notwithstanding the foregoing, in the event a party is unable to perform as a result of such force majeure event for a period exceeding sixty (60) days, the other party may, at its option, terminate its purchase order or commitment to sell the goods and neither party shall have any further liability hereunder other than for past services rendered and goods sold.

Terms: Net 30 Days on open approved accounts. 1.0% finance charge per month shall apply on all past due accounts. International accounts require prepayment. New accounts may require prepayment with first order.

Shipping: FOB North Richland Hills, Texas. Normal shipping via UPS or FedEx Ground, and charges for shipping and handling are added to the order total. Expedited delivery (Next Day, 2nd Day, 3rd Day) available for additional charge.

Note: Pre-paid shipping charges of \$17.50, do not apply to Alaska, Hawaii, Puerto Rico, the Virgin Islands and other U.S. Islands, international orders or orders including colposcopes and medical exam lights. An additional custom fee may apply for the Virgin Islands and other U.S. Islands, and international orders. A handling fee will apply to orders that use customer's own shipping account.

Partial Shipments: We reserve the right to make partial shipments against orders and the amounts for such partial shipments will become due and payable upon receipt unless otherwise agreed to in writing by GYNEX.

5% Discounts: Customers may deduct an additional 5% off their total order when payment is made by check or ACH at the time of purchase. Credit card payments and COD orders do not qualify for this discount. This discount does not apply to Microscopes, Colposcopes and/or extended warranties and some specials where products are already discounted. This discount cannot be combined with other discounts.

Warranties Returns and Disclaimers: All information concerning these GYNEX policies are detailed on page 94 of this catalog.

Missing Merchandise Policy: GYNEX personnel have taken great care to pack your order. Each LOT number indicated in the first column on the Packing List corresponds with and was scanned from the product packed in this box. Quantities were verified in this manner. Back orders are clearly marked, and do not have a LOT number indicated. If anything is missing from your package, the customer is responsible for notifying GYNEX within 24 hours of the customer's receipt of package.
